

## WHO WE ARE

MIRR is dynamic medical software startup specializing in data-driven solutions that provide real-time access during a patient encounter to a patient's medical history plus insight into possible treatment and testing procedures.

## IN A NUTSHELL

Using AI Machine Learning **eHealthview** is the first MIRR flagship product designed to improve the clinician-patient encounter experience by providing clinicians clear paths to accurate diagnosis & procedure coding

## WHO WE SERVE

Clinicians, Physicians, Physician's Assistants alike can realize a more efficient patient encounter experience by spending less time getting to accurate diagnosis and procedure coding

Houston, TX 77006

## OUR CULTURE

IS ROOTED IN HARD WORK AND THE UNDERSTANDING THAT OUR SUCCESS IS A REFLECTION OF OUR ABILITY TO BE AWARE IN HOW WE RESPOND TO CHALLENGES.

## THE MIRR MISSION

To improve the clinician-patient encounter experience by providing clinicians intelligent technology and method-driven tools to deliver accurate patient diagnosis. This means 1) Clinicians and Physicians can focus on patient care with the assurance that accurate coding is in the hands of MIRR and 2) Billing errors will be mitigated by the eHealthview logic, resulting in time saved making corrections.

## OUR VISION

To be a leader in providing data management, process-oriented, and visualization tools to aid the improvement of the patient encounter experience across all medical specialties.

We will realize this through our diligence in adhering to our values, our continuous push to improve our products and services, and our all-important quest to establish and maintain quality relationships.

## OUR VALUES

Through DILIGENCE, INTEGRITY, HONESTY, SATISFACTION, DISCRETION, & VALIDITY we have a value foundation that allows us to develop and maintain quality relationships, ensure we meet our standards of product and service delivery, and provide resting assurance that patient information is managed and protected to improve patient encounter healthcare.
